IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1 Claim 1. (*Currently Amended*) A nursing garment to be worn by a woman for breastfeeding a baby,
2 comprising:

3 an outer garment having a tubular body, the tubular body including a neck, a shoulder portion on
4 either side of said neck, and a first under arm portion below each shoulder portion; ~~and~~

5 an inner garment secured within said tubular body of said outer garment, said inner garment
6 including two chest panels and a front torso panel, a back panel, and a pair of shoulder straps, each said
7 chest panel having a lower edge secured to a top edge of said front torso panel, said back panel having
8 opposing side edges contiguous with a side edge of each said chest panel and side edges of said torso panel
9 for encompassing the upper body of a wearer, said shoulder straps extending between and connecting a
10 top edge of said back panel and an upper portion of said chest panels; and

11 an elastic band disposed circumferentially along an inner surface of the inner garment along a
12 bustline at a bottom edge of the chest panels, said elastic band encircling the inner garment;

13 whereby said tubular body of said outer garment may be raised and each said chest panel of said
14 inner garment may be pulled downward under the woman's breast to make the breast accessible to a baby
15 while nursing.

1 Claim 13. *(Original)* The nursing garment of claim 1, wherein said inner garment and said outer garment
2 are made from a blend of cotton and spandex material.

1 Claim 14. *(Original)* The nursing garment of claim 1, wherein said inner garment and said outer garment
2 are made from a fabric containing 95% cotton and 5% spandex.

1 Claim 15. *(Original)* A nursing garment for a woman nursing an infant, comprising:
2 a pullover blouse made from a soft, stretchable fabric and having a tubular body including a pair
3 of shoulders defining armholes and a torso portion;
4 an undergarment made from a soft, stretchable fabric having:
5 a back panel having opposing side edges, a top edge and a bottom edge;
6 a left breast panel and a right breast panel, each breast panel having a bottom edge, a side edge
7 attached to the corresponding side edges of the back panel, and a shoulder strap attached to the top edge
8 of the back panel;
9 a front torso panel having a top edge, a bottom edge, and opposing side edges attached to the side
10 edges of the back panel; and
11 an elastic band, the elastic band being sewn across the back panel and along a seam joining the
12 bottom edge of the breast panels and the top edge of the front torso tube, the elastic band forming a gather
beneath a bustline of the undergarment and encircling the undergarment, whereby the undergarment forms
